

Pediatric Contraindications & Sizing

Contraindications

One or more of the following:

- ✗ Pregnancy
- ✗ Colostomy / Ileostomy
- ✗ Abdominal Aortic Aneurysm
- ✗ Small Bowel Obstruction
- ✗ Gastroparesis
- ✗ Anatomical Abnormalities Precluding Device Placement (e.g. kidney transplant, abdominal drain, pain stimulator)

Guidelines for Placement

Ask the patient to slightly lift his or her hips. Slide ColoWrap under the patient so the top of the primary band is **aligned with the lateral peak of the patient's iliac crest (Figure 1)**.
